

Marlborough Equestrian Park is Developing its Facilities in Order to Host National and International Events For All Equestrian Disciplines

Similar covered yards recently built at McLeans Island in Canterbury have been a huge success. Marlborough Equestrian Park volunteers are working to provide a similar facility to cover 54 yards.

For \$1,000 you become a Foundation Member of Club 54 and your donation will be acknowledged on a permanent signboard at the park.

The Marlborough District Council fully supports this project and will match all contributions dollar for dollar.

“I was very impressed during the South Island Championships staged at MEP in 2020. It was a tremendous event and the park is shaping up to be one of the best in the country. But, to attract National and International events in the future, it will need covered yards “

- Vaughn Jefferis, Olympian and International Equestrian Trainer
